STOCK NEARLY SUBSCRIBED.

Galax Will Have New Chair Factory.

(Special to The Times-Dispatch.)

Galax, Va., April 19.—Galax is soon to have a new chair factory.

More than three-fourths of the capital has already been subscribed and work will begin on the factory at an early date.

The Council is again considering the matter of installing a system of water works for the town.

More than a score of citizens from Carroll and Grayson, left here last week for points in the West, many going to Canada, all with the view of locating.

Galax is planting about 1,000 shade trees along the sidewalks this spring.

Some time in the future visitors will regard Galax as one of the most beautiful towns in this part of the State.

The matter of a macadam road from Troutdale to Galax is still being agitated and mass-meetings of the citizens of the county will be held in the near future to formulate plans for the work.

Carroll and Grayson Counties are rapidly becoming more and more interested in agriculture. A few years ago immense quantities of flour and feed stuff were shipped into these counties, but from the trend of things it looks very much as if the time is not far in the future when both counties will export instead of import.

"ECO" PERSPIRATION CREAM

Stops that unpleasant odor from perspiration. Free yourself of this ailment. Send for tube. Money refunded if ineffective. E. W. ALD & CO., Dept. 14, 25 Broad St., New York.

**PARIS
GARTERS**

Mrs. J. Leroy Asher

Wishes to express her sincere thanks and highest appreciation to her many friends for the loyalty and influence they extended in the past campaign of The Times-Dispatch Automobile Contest, of which she was winner of the second grand prize.

PRESIDENT GETS MUCH-NEEDED REST

Secretary Tumulty on Guard,
and All Callers Are
Excluded.

SPENDS REAL HOLIDAY

Even Cabinet Officers Are Denied Calls on Their Chief.

Washington, April 19.—President Wilson took part of a holiday to-day, while Secretary Tumulty, always thinking of keeping unpaired the health of the chief executive, stood guard in the executive offices.

The President spent the morning in his library signing correspondence and dictating to his stenographer. In the afternoon he took a long automobile ride and walk combined. The strain on both the President and his secretary, as well as on all those around them, has been severe for nearly seven weeks. Day and night there have been demands upon the time of the President and Mr. Tumulty. Mr. Wilson, who started out by taking an hour's exercise late each afternoon, has been compelled to give that up, and it is conceded that his health is sure to be affected sooner or later if he persists.

Secretary Tumulty, who is much more to the President than a mere secretary, took the situation in hand with a firm grasp, and absolutely refused to make engagements for the President to-day, denying Cabinet officers the calls they sought.

Physician Adverses Reception. The President was inclined not to yield to the program, but the secretary insisted and won. Mr. Tumulty has been talking with the White House physician, who has brought out the importance of more exercise and diversion for the President to counteract the incessant rush—the every-minute demand for time and attention that hangs over the White House like a London fog.

President Wilson may go to New Jersey the last of this month aboard the Mayflower, the White House yacht. The vessel is waiting at the navy yard any time the President wishes to use her. The President is to make several speeches in New Jersey to arouse public opinion on the jury reform bill, to be called before the special session of the Legislature, which a few weeks ago failed to pass a bill suitable to the President. The only objection to the Mayflower trip is that it would take some time, although it would be helpful as a rest for the President.

Japan Problem Has Serious Aspect. Secretary Bryan talked for some time with the President this morning over the telephone. The Japanese-California situation is growing graver every day, owing to the agitation in Japan. The fact is expressed that if the Japanese continue to be busy the yellow journals here will take up the matter and arouse the American jingoism, with the result that a tremendously serious problem will face the two countries. The President and Mr. Bryan are keeping in close touch with affairs in California and Japan, and are getting many telegrams bearing on the subject.

Mrs. Woodrow Wilson, accompanied by Mrs. A. M. Wilson, wife of Captain Wilson, visited the executive offices to-day. It was the first visit of the President's wife to the quarters over which her husband holds sway. She was escorted through the offices by an employee.

NOTABLE WOMEN WILL BE PRESENT

Virginia Federation of Women's
Clubs to Meet at Clifton
Forge April 28-30.

Many notable club women from various States will assemble in Clifton Forge to attend the sixth annual convention of the Virginia Federation of Women's Clubs, April 28-30.

The presence of Mrs. Pennybacker, president of the General Federation of Women's Clubs of America, will be one of the most attractive features of the convention.

Among others whose names appear on the program are Mrs. Williams of Fairfax, Mich.; Mrs. Sheath of Tiffin, Ohio; Mrs. Reilly of Charlotte, N. C.; and Mrs. Andrews of Washington, D. C.

The Virginia Federation is youthful compared to some of her sister States, and the accomplishments have been as measure as its numbers, when compared with larger States, yet the aims of the Federated Clubs of this State are perhaps above the average.

In 1907, due to the inspiration of the late Mrs. Sarah Platt Becker, who was then president of the General Federation, the Virginia Federation of Women's Clubs was organized in Lynchburg, with a membership of ten clubs. At the outset the paramount question was declared to be education—the extension, improvement and better equipment of schools. Following out this idea, the education committee began the work for the State is doing for women, for which a bill has been introduced in the last Legislature, and though this bill was defeated, it will come up again at the next Assembly.

The industrial education committee originated and successfully launched the county school fairs, under the efficient leadership of Miss Anna L. Jones, of Lynchburg. An exhibition of the best work done through these fairs will be held in Lynchburg next November, under the auspices of the industrial education committee.

At the beginning of the present year, the roster numbered fourteen clubs, while there are now twenty-eight, with others asking for admission. Many clubs have been organized solely for civic betterment. There are others whose members devote their time mostly to the study of literature, sharing their self-cultural efforts with their communities. These literary clubs have in most cases a reading department. While clubs have taken a firm hold upon the hearts of the clubs than any other department, yet there are other things for which the federation stands and for which it has worked, such as matters pertaining to health, sanitation and social uplift of the community, rural as well as urban.

It is the aim of the Virginia Federation to become one of the leading factors for constructive good and uplift of this State.

MONDAY SPECIAL

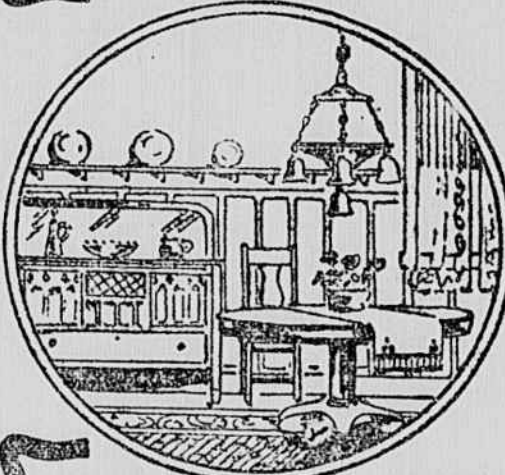

Some Mondays ago we sold 650 HIGH GRADE PICTURES at 75c and \$1.00, and could not supply the demand. We have just received another large shipment of the same grade

Pictures

in beautiful subjects and high grade frames. They are 18x20 size, with glass, and you will say they are the most wonderful values you've ever seen. But for the fact that they are part of a bankrupt stock we could not offer them to you for less than \$2.25. For Monday only,

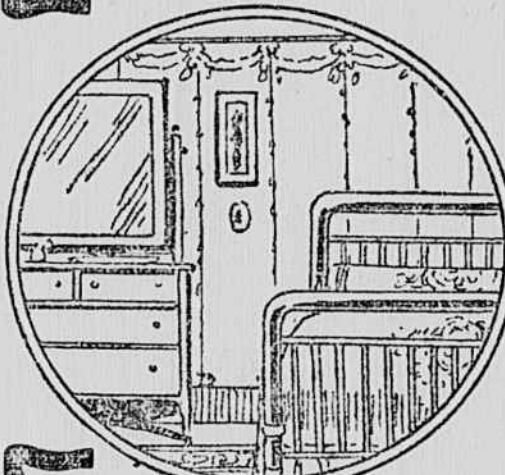

75c

To those whom we could not supply at our last sale, we offer this opportunity.

Dining Room Suites

in quartered golden oak, mahogany, early English and weathered oak. The best display in Richmond, and at prices much lower than elsewhere.

Bedroom Suites

An excellent display in walnut, bird's-eye maple, oak and mahogany; also many beautiful odd Dressers, Tables, Chiffoniers and Wardrobes at prices beyond competition.

SEABOARD ROAD IS DOUBLE TRACKING

Norfolk and Portsmouth Have
Occasion for Great Rejoicing.
Great Things Ahead.

The Norfolk Ledger-Dispatch editorially makes this following interesting announcement:

The announcement made in our news columns yesterday that the Seaboard Air Line Railway management contemplates the eventual double tracking of the entire system, and initiating this will proceed to double track the division between Hamlet and Raleigh shortly, is of very great significance.

It seems to be further and, in fact, practically incontrovertible evidence that this port is to soon become or far greater importance than it ever has been, and that the volume of traffic passing through it will soon reach tremendous proportions.

This growth of traffic already has been forecast at least so far as the coal trade is concerned, by the building of the Virginian Railway and the double tracking of the Norfolk and Western Railway and the Chesapeake and Ohio Railway.

There is reason for believing that the three east and west lines last mentioned contemplate not only an increased coal movement, but also a very much larger movement of general cargo over their lines, which last President L. E. Johnson, of the Norfolk and Western, recently predicted, but the Seaboard has furnished complete proof that a large increase of general traffic may be anticipated, since it is not a coal carrier.

It is generally apprehended here that the first essential in the building of a town is that it shall have good railway facilities, and, therefore, the people of this port ever have encouraged the building of railways and afterward have treated these carriers generously. That they have done this is conceded by transportation men, and that they have no reason for regret

that they have done so, is perfectly clear.

Friendly to all the carriers, the people of this section are especially friendly to the Seaboard, which is an old friend, and it is certain that the expansion of the system and its prosperity under the management of President Harahan are gratifying to them.

MUST ANSWER CHARGE OF CHECK-FLASHING

R. S. Parks, Arrested in Bristol, in Jail at Abingdon Awaiting Action of Grand Jury.

(Special to The Times-Dispatch.)
Pulaski, Va., April 19.—R. S. Parks, who has been wanted here for several years on a charge of check-flashing, was arrested several days ago at Bristol on a similar charge and is in the Washington County jail at Abingdon awaiting the action of the grand jury.

W. F. Tilson, a local merchant, who was a victim of one of the worthless checks, went to Abingdon yesterday and identified Parks as the man who got him for \$50 three or four years ago. He had with him a warrant, but this could not be served pending the action upon which the prisoner was first arrested. Parks had been in the West and returned only a few days ago to Bristol, thinking his check-flashing had been forgotten, but he had scarcely reached that city before he was taken up.

Bondless getting a \$15 overcoat and \$45 in cash from Mr. Tilson, Parks went to the dispensary, which was then being operated here, and ordered a quantity of whiskey shipped to him at Galax, tendering in payment a check for \$80, and receiving about \$45 in cash. These checks were payable at the bank at Elkins, N. C., and were drawn by the Ronda Lumber Company, and payable to C. H. Kane, under which name Parks was passing. The genuineness of them seemed satisfactory because they were certified by the cashier, A. Chatham, this being a forgery. It was learned after-

ward who Kane was and that he lived across the line in North Carolina, and warrants were issued and arrangements were being made to arrest him and bring him back when he was tipped off and left, remaining away until he thought the transaction had been forgotten, admitting that was why he returned.

CHARMAN CHOCOLATES

Delicious Orange
County Hams,
28c lb.

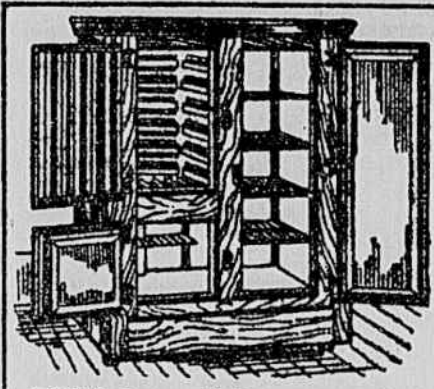

Choice Selected Hams, with the real flavor from perfect feeding and curing, 6 to 8 lbs. each.

Minced Ripe
Olives

an appetizing spread for sandwiches—delightful for lunches; in convenient jars, 15c and 25c.
